CUSTOMER INFORMATION AND DATA PROTECTION

In assessing your application, we will make enquiries about your applicant which may include searching any records held by Credit Reference Agencies, Electronic Identity/Verification Systems and checking your details with Fraud Prevention Agencies. If you or your applicant give us false or inaccurate information and we suspect fraud we will record this. The Credit Reference and Fraud Prevention Agencies will keep details of any searches. Information held about your applicant by the Credit Reference Agencies may already be linked to records relating to one or more of their financial associates.

For the purpose of this application your applicant(s) may be treated as financially linked and the application will be assessed with reference to any "associated" records. If they are joint applicants, or if we have been told of some other financial association with another person, your applicant must be sure that they are entitled to (a) disclose information about any joint applicant and anyone referred to by them; and (b) authorise us to search, link or record information at Credit Reference Agencies about them and anyone referred to by them. An association between joint applicants and between your applicant(s) and anyone they tell us is their financial partner will be created at Credit Reference Agencies. This will link their financial records, each of which will be taken into account in all future applications by either or both of them. This will continue until one of them successfully files a disassociation at Credit Reference Agencies.

You confirm that your client has given consent to us disclosing details of their application to Credit Reference Agencies, Fraud Prevention Agencies and our funders. This information may be used to help us and other organisations to (a) assess the financial risk of dealing with you and other associates; (b) may be used to help make decisions on motor, household, credit, life and other insurance proposals and insurance claims; (c) administer agreements and insurance policies with you; (d) help prevent or detect fraud, prevent money laundering or other crimes, recover debts and trace debtors; and (e) for statistical analysis about credit, insurance and fraud.

We may use a "credit scoring" or other automated process in deciding whether to accept your client's application and during the life of their loan account. We may use an initial soft search at the early stages of an enquiry, a full search on application and may recheck prior to or at completion.
