

Borrower's previous project experience form

Please provide details of three recent projects that you have undertaken within the last three years that are of similar size, scope and cost to your proposed project. Where available, please include project photos or website links.

For light refurbishment projects with cost of works up to 50% of OMV/purchase price, if you are unable to provide three recent projects, we can consider your contractor's experience instead. Please provide their CV, confirming details of ten recently completed similar projects, or request our "Contractor's Experience Form" for their completion. Thank you.
