

Contractor's previous project experience form

For light refurbishment projects with cost of works up to 50% of OMV/purchase price, we will consider the contractor's experience instead of the borrower's. Please provide your CV and details of ten recent projects that you, the contractor, have undertaken within the last three years. They must be of a similar size, scope and cost to the proposed project. Where available, please include project photos and/or website links. Thank you.
